Veneer Technologies Introduces Online Immediate Price Quote System for Sheet Veneer Buyers/Distributors

NEWPORT, NC: Life just got much easier in regard to getting more timely, accurate quotes and placing orders for sheet veneer. Builders, building supply firms, cabinetmakers, custom furniture craftsmen, furniture manufacturers, architects, architectural woodworking firms and others all benefit from the new Veneer Technologies (Veneer Tech) online “Quoting Wizard” that provides secure instant pricing, on-hand inventory status and delivery dates, and reflects any customer volume discounting. The system database is updated twice daily and provides accurate quotes on sheet veneer that can be communicated to users’ customers in a flash.

“This proprietary Veneer Tech quoting system has the potential to revolutionize our industry,” says John Varner, Veneer Tech vice president. “It provides not only better pricing but greater speed, greater accuracy, more money-saving options for any customer, and helps ensure certain delivery promises. It can do that not in days or hours but in seconds, so a vendor can pass along the information during a phone call or a face-to-face meeting with a client.”

The Veneer Tech Quoting Wizard was three years in development and is flexible and adaptable to any client needs. There is really nothing else like it. Access to

the program is secure. For specifics call 1-800-593-5601 or e-mail Alan Hubbard, ahubbard@veneertech.com, or Meghann Veit, meghann@veneertech.com.

Veneer Technologies is located in Newport, NC, and specializes in natural face veneer, sheet veneer and edgebanding. The company is known for high technology veneer processing. Further information about Veneer Technologies is available at www.veneertech.com.

Anegre - Plain Sliced

Sheet Veneer Grade, 10 mil back

origin: West Africa
 scientific name: *Aningeria spp.*
 description: Anegre varies in color from bright brown or tan to almost white. Anegre is usually cut on the true quarter because the logs are often quite large, and because of the appeal of straight grain. It has fine texture, high luster, and is slightly siliceous.

\$41.60 per sheet X
 sheet size: 48" x 96"
 Quantity

32,000 sq. ft.
\$1,300 per sq.ft. **Current Availability: 0**

Our customers know. We're lightning fast with sheet veneers and edgbanding backed with the technology, determination and customer focus to fulfill any order. We have a very simple concept: we aim to respond with superior quality exactly to your specifications, on time and in the right place.

We carry most domestic species and have access to many exotic species from around the world. We currently operate eight continuous cross feed splicers, producing approximately 5 million finished square feet of face veneer per month. Veneer Tech is primarily a book and running match operation, but also manufactures large amounts of slip match, plank match, center
