The over 100 entries in this year's competition can be viewed on the Veneer Technologies website at www.veneertech.com. Details about the category winning entries plus judge comments can be found at the website. There is also an archive of 2005-2013 competitions' entries.

Experts from the fields of woodworking media and education, furniture making, and hardwood veneer manufacturing formed the panel of judges for the 2014 Veneer Tech Craftsman's Challenge. Tim Fixmer of CCI Media is publisher of *CabinetMaker+FDM* magazine, co-sponsor of the Veneer Tech Craftsman's Challenge, and is a member of the Woodwork Career Alliance Education Committee. Wave Oglesby is vice president, sales and marketing, for Columbia Forest Products. Alfred Sharp's period furniture has been featured in *Antiques*, *Colonial Homes*, *Custom Woodworking*, *Fine Woodworking*, *Woodwork*, and *Woodshop News* magazines.

Sharp commented on the panel's selection of Bespoke Minneapolis for the grand prize and for the Cabinetry category, "When I look at these entries, I'm envious of the level of design and even more of the quality of execution that went into this work." Fixmer said, "This year's competition was filled with high quality entrants. We had some very difficult decisions to make in many categories, and we created an ad hoc category 'Wearable Veneers,' to recognize three veneer eyeglass frame designs."

The Veneer Tech Craftsman's Challenge entries for 2015 will be accepted beginning the first of January. Next year's competition results will be announced at AWFS® Las Vegas.

Veneer Technologies, located in Newport, NC, is one of the industry's largest manufacturers of high quality face veneer, sheet veneer and edgebanding. Veneer Tech sources wood species worldwide.
